

As a result of a mechanical failure of a compressor, Arcadia Gas Storage, LLC ("AGS") will be performing work at the AGS facility on Gas Days October 17, 2022 – October 21, 2022. We anticipate that AGS will experience a degradation of approximately 70,000 Dth per day in injection capability. Accordingly injection nominations may be reduced or not confirmed during this time. Due to scheduling conflicts or unforeseen delays, the dates set forth above are subject to change. Any changes will be posted at the earliest known date. If you have any questions, please contact:
