

Along with other bug fixes, the following enhancements have been made to your NGI system as of March 24, 2009. If you have any questions or comments, please feel free to call us at (972) 747-1983, extension 112.

Noms

- Suppression of Zero Noms
 - When viewing Noms, you can now choose to Suppress noms that have both a Receipt Qty of zero and a Delivery Qty of zero.

* If you would like to set one of these as your default selection, please call us at (972) 747-1983, extension 112 or e-mail Kyle Murphy at kyle@latitudetech.net.

Noms (cont.)

- **Wheel** transactions can now be performed on **Hub Contracts**.
- **Email Notifications**
 - Added spacing and carriage returns to the emails to make them easier to read.

Projected Inventory

- You now have the ability to project out up to 180 Days.

Notices

- For those FERC regulated customers who use Latitude's Informational Posting sites, you now have the ability to e-mail your **NGI Notice Contacts** when posting a Notice.
 - When creating a Customer in NGI, add **Contacts with a Type of "Notice"**. This will make this contact available from the Informational Posting Admin site when posting a Notice.
