

The following enhancements have been made to your NGI system as of May 26, 2010. If you have any questions or comments, please feel free to call us at (972) 747-1983, extension 112.

### Contracts

- Customize the **number of days between the Effective and Termination Dates** when adding a new contract.  
*\* To enable this setting, please contact Kyle Murphy at [kyle@latitudetech.net](mailto:kyle@latitudetech.net)*
- When **copying a contract**, the Contract Number will now be populated.

### Reports

- Reports are now grouped by function.
- All reports with a date range can now pull **any 1 year of data**.
- **Grouping** has been added to the **Custom Nom Report**

The screenshot shows a web-based interface for configuring reports. At the top, there are four checkboxes: ☐ CustomerID, ☐ EndingDate, ☐ RInventoryQuantity, and ☐ DelPtPriority. Below these is a section titled "(Step 5) Group the Output" in orange. Under this title, it says "Select the output grouping" in blue. A dropdown menu is open, showing four options: "Contract (default)" (highlighted in blue), "Gas Day", "Transaction Type", and "No Grouping". To the right of the dropdown, the word "report" is partially visible in orange. Below the dropdown, there is a blue text link: "(Default) will save all of the above settings for later use." At the bottom of the form, there are four buttons: "Run Report", "Reset", "Clear All Selections", and "Delete Report".
