

The following enhancements have been made to your NGI system as of February 10, 2011. If you have any questions or comments, please feel free to call us at (972) 747-1983, extension 112.

Nominations

- **New Contract/Transaction Type Selector** (click image below to see a demo)

The screenshot displays the NGI Nominations interface. On the left is a vertical navigation menu with the following sections: **Nominations** (containing Daily Nom Summary, View Point Quantities, View Hub Noms, Schedule Qtys by Cust, Schedule Qtys by Point, and Submit Nominations), **Flowing Gas** (containing Measured Volumes, Actual Volumes by Day, Actual Volumes by Month, OBA Management, Post Imbalances, View Imbalances, and View Imbalance Trades), **Inventory Mgmt** (containing Facility Inventory, Historical Inventory, Projected Inventory, and Adjust Inventory), **Capacity Release** (containing Offers Bids Awards and Index Mgmt), and **Misc** (containing Contract Mgmt, Customer Mgmt, Download Options, and Email Events Mgmt). The 'Submit Nominations' link is highlighted with a red dashed box and a mouse cursor. The main content area has a title 'Select a Contract and Transaction Type for the Nomination, then press the 'Continue' button.' Below this title are two dropdown menus: 'Select a contract or start typing to filter contracts.' and 'Transaction Type'. A 'Continue' button is positioned below the first dropdown. At the bottom of the window is a standard Windows taskbar with navigation buttons and a scrollbar.

- Receipt and Delivery Location drop down boxes on Nomination Entry/Edit now filter using the Interconnect's Direction (Injection, Withdrawal, Bi-Directional) based on the Transaction Type.

Customers

- Added **Record Date** to the **Customer** Entry/Edit screen. This allows you to place a date on a Customer for reporting purposes.
