Location Data Download (NAESB WGQ Standard No. 0.4.4)

The Location Data Download is a report that is provided by a Transportation Service Provider (TSP) which contains location data for the TSP.

The report should be represented in CSV format and should be available for download from the TSPs Informational Postings Website.

Steps to Implement

1. Update Interconnects in NGI
2. Create the file from NGI
3. Upload the file to your Informational Postings Website

Latitude Technologies

Step 1: Update Interconnects in NGI

As an Operator, go to <u>Interconnect Mgmt</u> and click on an interconnect to Edit. Required fields are highlighted below.

General Information

Location Name
Your Name for the Location

Location - DRN Number
Your Location Code (DRN)

Proprietary Code

Location Zone
If none, put "N/A"

Location County

Location State Abbreviation
Select State ▾

Location Type Indicator
Select One ▾

Location Status Indicator
Active ▾

Effective Date
First Gas Day

If Location Status Indicator is Inactive, use the Last Gas Day

Update Date/Time
(eg. 04/01/2016)

Direction of Flow: ○ Injection ○ Withdrawal ● Bi-directional

Upstream/Downstream Entity Data

Upstream/Downstream Entity Indicator

Select One ▼

Upstream/Downstream Entity Name

(eg. Big Pipeline Co., Inc.)

Upstream/Downstream Entity Identifier Code

Up/Dn Entity DUNS Number

Required if Upstream / Downstream Entity Indicator is "Yes"

Upstream/Downstream Entity Identifier Proprietary Code

If no DUNS Number

Upstream/Downstream Entity FERC CID Indicator

Select One ▼

Upstream/Downstream Entity FERC CID

(eg. C000265)

Required if Upstream / Downstream Entity FERC CID Indicator is "Yes"

Upstream/Downstream Entity Location Name

Up/Dn Entity's Name for this loc

Upstream/Downstream Entity Location

Up/Dn Entity's Location Code

Step 2: Create Location Data file in NGI

Once you have updated all of your Interconnects, you are ready to create the file.

Just go to Interconnect Mgmt, and click on "Download Location Data". Save the file to a location that you will remember (you will need it in Step 3).

Interconnect Management

Setup OBA Interconnect Groupings									Add New Interconnect
Location Name	Location	Proprietary Code	Design Capacity	Operational Capacity	Up/Dn Entity Name	Allow Noms	Post OAC	Post UnSubCap	Direction
Destin	008527889		400000	400000		YES	YES	YES	Bi-Directional
Gulf South	078444247		400000	400000		YES	YES	YES	Bi-Directional
Midct Express	45015		400000	400000		YES	YES	YES	Bi-Directional
Sonat	006900518		1000000	1000000		YES	YES	YES	Bi-Directional
Tennessee Gas	001939164		300000	300000		YES	YES	YES	Bi-Directional
Transco	918218		800000	800000		YES	YES	YES	Bi-Directional

Download Location Data

NOTE: You may need to open the file in Microsoft Excel to fill in any missing information. If you do, please make sure to save it as a CSV file (not an XLSX) when done.

Latitude Technologies

Step 3: Upload the file to Informational Postings Website

Now, switch over to your Informational Postings Website Admin and login.

Once logged in, look for "Locations" under the Misc section of the left-side navigation.
