

UPDATE to PRIOR NOTICE: NGI System Implementation for Hill-Lake and Worsham-Steed

Yesterday, we notified our Customers that effective July 15, 2026, Customers would be able to access all their Williams storage facilities through a single NGI user ID.

With apologies to our Customers, we need to revise the implementation date to sometime in August. We will send another notice when that date has been confirmed. Again, we apologize for the inconvenience.

If you have questions, please contact the Scheduling Hotline at 713-215-2131. Thank you.
